

WebLink Education

Welcome to WebLink Education!

Thank you for your purchase! I am honored to be a small part of your homeschooling journey and hope this resource provides you with comfort, confidence, and clarity as you create a learning experience that is unique to your family.

One of the greatest benefits of homeschooling is the opportunity to foster a genuine love for learning in your children. While homeschooling is an incredibly rewarding adventure, it also comes with many questions, decisions, and opportunities along the way. That's perfectly normal!

For more than 16 years, I have had the privilege of counseling homeschool families across the nation, helping them navigate everything from curriculum choices and learning styles to high school planning, transcripts, and more. I am confident that I can help answer your questions and provide guidance when you need it.

I invite you to explore my website, as it is always growing and changing with new resources, tools, and downloads designed to support homeschool families. In addition to a wide variety of downloadable products, I also offer personalized homeschool consulting sessions dedicated entirely to your family's unique needs and goals.

Copyright Notice

All WebLink Education downloadable products are protected by copyright and are intended for the personal use of the purchaser only. Your purchase allows you to use these materials within your immediate family, but they may not be copied, shared, distributed, resold, posted online, or reproduced in any form without written permission. Thank you for respecting the time, research, and effort invested in creating these resources.

Thank you again for your purchase. I wish you many wonderful years of learning, discovery, and success as you build a homeschool experience that works for your family.

Blessings,
Valerie Watne

Learning Behaviors Quiz

Which school subject does your child seem to enjoy the most?

- 1. Reading, writing, or workbooks ★
- 2. Building, designing, or creating projects with their hands
- 3. Subjects that involve imagination, creativity, or open-ended expression

Which of these helps your child learn the best?

- 1. Seeing information presented through images, diagrams, and maps ★
- 2. Talking through ideas or discussing concepts with others
- 3. Learning by doing, experimenting, and building

When given an assignment, what do they prefer?

- 4. Written instructions with directions ★
- 5. Instructions are given verbally and then talked through together
- 6. You demonstrate the assignment, and they need hands-on practice

Think about your child while reading. What have you noticed?

- 7. They quickly lose interest and daydream, fidget, and move around
- 8. They can easily visualize characters, places, and events in the story. ★
- 9. They learn best by talking about what they have read or hearing it read aloud

What is your child's favorite activity?

- 1. Reading, drawing, puzzles, or reading ★
- 2. Listening to music, audiobooks, or storytelling
- 3. Building things, sports, or video games

When your child needs to remember something, what helps it stick?

- 1. Seeing it written down or seeing it in a picture
- 2. Hearing it repeated or discussed ★
- 3. Acting it out with others or drawing

When your child encounters a challenge, how do they usually approach it?

- 1. They look for instructions or an example to follow.
- 2. They talk through the problem with someone.
- 3. They try to find a solution on their own ★

When your child is studying, what helps them the most?

- 1. Prefers a quiet environment with books, visuals, and minimal distractions ★
- 2. Enjoys studying with background music or by reading information out loud
- 3. Learns best while moving, using flashcards, or working with hands-on materials

Deciphering the Quiz

Understanding Your Results

★ All Yellow Star Answers

Your child demonstrates many characteristics of a left-brain learner. These learners often thrive with structure, routine, logical thinking, step-by-step instruction, and organized learning environments.

★ A Combination of Yellow Star and Non-Star Answers

Your child shows a blend of both learning styles. Depending on the number of star and non-star responses, they may be:

- A balanced learner who benefits from both structured and creative approaches.
- A left-brain learner with right-brain tendencies who enjoys organization but also benefits from hands-on, visual, or creative learning experiences.
- A right-brain learner with left-brain tendencies who prefers creativity and big-picture thinking but can also work well within structured learning environments.

•

★ All Non-Star Answers

Your child demonstrates many characteristics of a right-brain learner. These learners often excel with hands-on activities, creativity, imagination, visual-spatial learning, real-world experiences, and seeing the big picture before focusing on details.

Remember: Every child is unique. This assessment is designed to help identify learning preferences, not place limitations on how a child learns. Most students benefit from a combination of teaching methods and may display traits from both learning styles.
